

Teaching Assistant Program
Center for Learning & Teaching

Ref: Letter of Recommendation

It is my pleasure to provide a recommendation letter to REN Zeyi 任泽逸 regarding the TA training experience (Advanced Level) at the University of Michigan – Shanghai Jiao Tong University Joint Institute (JI).

The Center for Learning and Teaching of JI has developed a comprehensive TA program from recruitment to a series of professional training sessions and performance evaluations. The TA training sessions include one two-hour TA orientation conference and a series of hands-on teaching and learning workshops.

In addition to basic TA workshops, the Advanced Level TA Training includes three major workshops: (1) Practice Teaching; (2) Teaching Strategies – Active Learning; and (3) Case Study. With heavy involvement of JI's faculty, students in these advanced workshops received step-by-step trainings for their interactive lecturing skills in recitation class, teaching planning, and new teaching technology practice. Students awarded "Advanced TA Certificate" have also received an "outstanding" rating for their "Onsite RC evaluation" assessed by their course instructor, students, and CLT supervision faculty.

In summary, the Advanced TA Certificate can be regarded as a strong supporting evidence for this student's teaching capability.

Prof. Qiang Zhang

Director, Center for Learning and Teaching
University of Michigan – Shanghai Jiao Tong University Joint Institute
